SUBJECT: Post-Mortem on SE-27

*GT*

1. The attached post-mortem on SE-27 has been discussed with representatives of OIR and ORR, and both have agreed with its findings.

2. If we are to solve the problems raised in this post-mortem and justify the post-mortems procedure, firm continued pressure will have to be exerted over whatever group is charged with responsibility for carrying out the recommendation. In particular, unless something is done to expand some of the contributing agencies, in particular OIR/DRF, the problems raised in this post-mortem will plague us indefinitely.
